Appointment details:

When:
Tuesday, September 5, 2023 at 08:00 PM PDT

Add to my calendar

What:
COVID-19 (Moderna)

Where:
5501 BALL ROAD CYPRESS, CA 90630

Get directions

Next steps:

- Please check in at the pharmacy area inside the store when you arrive.
- Bring your ID and insurance card, voucher or other coverage (if you have Medicare, you'll need your red, white and blue Medicare card).
- You'll also need your CDC vaccination card if you're coming in for a COVID-19 second-dose, booster or extra-dose appointment.
- If you're getting a COVID-19 vaccine, be prepared to stay for 15 to 30 minutes after you receive your dose so you can be observed for side effects.

What to do if you're feeling sick or experiencing COVID-19 symptoms:

- Don't go to the pharmacy.
- Contact your primary care provider for next steps.

CVS tips for vaccine shots:

Did you know wearing short sleeves makes getting a shot easier and faster? If you must wear long sleeves, dress in layers with the short sleeves underneath.

Review your patient fact sheet or vaccine information statement for up-to-date, vaccine-specific information about side effects, risks and more.
