

EXTRON CERTIFICATION ONLINE

Extron offers Internet-based, interactive instruction on A/V technologies, Extron products, applications, and more. All you need is a multimedia computer with an Internet connection, and you can take advantage of Extron's variety of educational programs from the comfort of your home or office.

A/V Associate Certification Program

Advance Your Career Become an Extron A/V Associate

The Extron A/V Associate Certification Program provides:

- Increased familiarity with A/V technologies
- Understanding of Extron products and applications
- Excellent opportunity for new hires to get up to speed quickly
- Extron Certified A/V Associate official recognition
- Launching point for other Extron programs, schools, and certifications
- Continuing education credits toward industry trade certifications

The Path to Certification Begins Here

The online, highly interactive Extron A/V Associate Certification Program provides a working knowledge of A/V technologies and an overview of Extron products and applications without extensive travel or disruption to your busy work schedule. Acquired expertise in any field saves valuable time and money, and ensures a higher level of customer service and satisfaction. By becoming an Extron Certified A/V Associate, you'll achieve industry-wide accreditation, while obtaining the skills you need to compete in today's competitive marketplace.

AUDIENCE

Designed for new hires, sales personnel, and anyone else who desires a better understanding of A/V technologies.

REQUIREMENTS:

- Complete all courses within 90 days of registration
- Pass comprehensive exam
- Renew annually by taking a free refresher course on Extron products

SUCCESSFUL COMPLETION ENTITLES YOU TO:

- An official Extron A/V associate plaque of recognition
- An official Extron A/V Associate polo shirt
- Prerequisite for advanced courses and certifications
- Industry recognition as a certified A/V professional
- 6.5 InfoComm® Renewal Units (RUs) for maintaining InfoComm CTS certifications
- 6 Learning Units (LUs) that can be applied toward continuing education with NSCA
