Yes, You Can.

Can you get a reliable PC that meets your standards of style, creativity and affordability? One look at the Gateway® DX Series Desktop and the answer is a resounding "Yes, you can." With the DX, you can watch high-definition movies, whip up multimedia presentations, check in with your favorite social networks, and more. You can do just about anything using the DX.

You Can Shine

Who can resist the glow of the DX's front panel button, the glossy black finish, and smooth curves? They all bring a keen sense of style and functionality to your desktop.

You Can Create

The latest core processing technology inside your DX gives you the freedom to compile and organize photos, build music libraries, edit videos, and perform other feats of your imagination.

You Can Expand

The optional Easy-Swap expansion bay lets you add as many as three hard drives—up to 6TB of storage. With the optional USB 3.0, watch your data transfer speeds skyrocket.

You Can Access

Store your stuff in the handy device tray for easy retrieval. Connect memory cards and digital devices to the front panel ports, and manage cables via an integrated compartment.
