Passionate Design.
Intense Performance.

The faster, bolder, uncompromising
Gateway® FX Series Desktop

The power in the award-winning Gateway® FX Series Desktop takes hold the minute you turn it on. This is a system as fierce as it is stylish—a finely tuned high-performance machine that rounds the corner with confidence and flair. From competitive gaming to multimedia imagineering to high-definition movie watching—once you take the FX out for a spin, there's no turning back.

Aggressively Styled

The FX's sharp edges, ventilated mesh design, and glossy black and red exterior exude an air of world-class sophistication and race-car styling. We're talking the crown jewel of the showroom floor.

Extreme Speed

Under the hood, turbo-charged 8-core processing gives the FX its muscle. Push multithreaded gaming and image rendering to the metal, and feel the rush of adrenaline surging through your body.

Ultra Competitive

Your FX boosts enough high-definition power to leave all challengers at the starting line. With support for Blu-ray™, 1080p, surround sound and 3D, gaming is transformed into an immersive thrill ride.

Maximum Expandability

The FX's two Easy-Swap expansion bays give you room for up to three Serial ATA hard disks—enough for up to 6TB of storage. Throw in a couple of USB 3.0 ports and buckle your seatbelts.
