Fits Anywhere

On your desk, under your desk, in your desk—the Gateway® SX Series Desktop fits in anywhere. At one-third the size of a standard desktop—almost 11" tall—it could easily get lost behind a stack of papers. When it comes to performance, however, nothing gets lost because the low-profile SX is designed for getting the job done right.

Elegant Style

The elegant soft curves and glossy black finish of the SX imply a distinctive air of confidence and class. Yet its modern and lustrous exterior is also about making the company it keeps look good—be it in your home office or your den. You could say the SX ties any room together.

Lighting the Way

The light switch button and illuminated Gateway brand logo catch your attention. The unique glow acts as your guide, telling you the SX is ready to take on the day and get you wherever you need to go.

Simple Extras

The SX's small chassis doesn't limit its functionality. The tray on top is a handy spot for digital devices, while an adjacent cable management system prevents your devices' running wires from becoming tangled. Add an optional Wi-Fi, a wireless keyboard and a mouse to create a clean and tidy desktop.
