

## Extron® MAV Series A/V Matrix Switchers

### Engineered to Fit Your Application and Your Budget

The Extron **MAV Series** of Matrix Switchers now includes 24 new, smaller-sized models — 4x4, 4x8, 8x4, and 8x8 — for composite video, S-video, and stereo audio. The unique 4x8 model is designed for A/V applications that require more outputs than inputs, such as residential, point of purchase, and themed entertainment environments. With these additional sizes, the MAV Series now offers 54 convenient, integration-friendly models that meet a broad range of matrix switching requirements.

#### The new MAV Series offers:

- 150 MHz (-3dB) video bandwidth
- Video genlock and vertical interval switching
- Input audio gain and attenuation
- Audio models with either RCA or captive screw connectors
- Audio breakaway capability
- Audio output level can be set to either professional level (+4dBu) or consumer (-10dBV) level
- IR control using the optional IR 501 remote control

24 New Models to Choose From!	Available in 4 I/O Sizes:			
	4x4	4x8	8x4	8x8
Composite Video	MAV 44 V	MAV 48 V	MAV 84 V	MAV 88 V
Composite Video & Stereo Audio (captive screw)	MAV 44 AV	MAV 48 AV	MAV 84 AV	MAV 88 AV
Composite Video & Stereo Audio (RCA connectors)	MAV 44 AV RCA	MAV 48 AV RCA	MAV 84 AV RCA	MAV 88 AV RCA
S-Video	MAV 44 SV	MAV 48 SV	MAV 84 SV	MAV 88 SV
S-Video & Stereo Audio (captive screw)	MAV 44 SVA	MAV 48 SVA	MAV 84 SVA	MAV 88 SVA
S-Video & Stereo Audio (RCA connectors)	MAV 44 SVA RCA	MAV 48 SVA RCA	MAV 84 SVA RCA	MAV 88 SVA RCA

MAV 44 V  
4 inputs, 4 outputs

MAV 48 AV  
4 inputs, 8 outputs

MAV 84 SVA RCA  
8 inputs, 4 outputs

MAV 88 AV  
8 inputs, 8 outputs
