- 4-cell Li-ion battery (2500mAh), with up to 6-hour battery life⁽⁴⁾
- 5.51 lbs. | 2.5kg (system unit only)

Selling Points

1 Ezel™ Hinge

The 15.6" Aspire R Series Notebook is specifically designed for **touchand** type with a convertible design that immerses you in content like never before. This slim, high-performance PC features our patented **Ezel™ hinge**, which allows it to flip into four different modes—with just one hand!

The revolutionary dual-hinge design connects a touch display and main chassis. It brings the touch display close to you and easily switches among create, browse, and share scenarios.

Thanks to the R Series' ingenious torque design, you get rock-steady touching and silky smooth switching between modes. It's easy to open the display lid and change modes even with just one finger, yet when you touch the display panel it remains firm.

2 Four Unique Viewing Modes

Orient the screen like a traditional laptop in **Notebook** mode for easy access to a touchscreen, a touchpad and a backlit keyboard. The backlighting not only looks cool, but it also helps guide your fingers while typing in dimly lit areas.

Ezel mode brings the touch display closer to you, so you don't have to reach across your desk to use the touchscreen. Just pull the display up and out and let it float over the keyboard for comfortable touching and typing onscreen.

At an ergonomic 4-degree tilt, **Tablet** mode is perfect for pure touch interactions like gaming, browsing and drawing—yet you still have the robust performance of a high-end notebook.

Flip the R7 around to **Display** mode and share movies or presentations without any distractions or the keyboard getting in your way. Even the stereo audio is reversed so the sound stays focused.

3 Top Sights and Sounds

The Aspire R Series delivers awesome sights and sounds in every mode. Four powerful speakers plus **Dolby® Home Theater® v4** generate four times the acoustic power of conventional notebooks. Plus, audio channels automatically reverse when switching modes, so stereo sound is always perfect.

The **Full HD 1080p** LED display makes details stand out. Have crystal-clear video chats with friends and family and snap still pictures, all in HD, with the advanced HD webcam. Its high pixel density delivers amazing image quality in 24 frames per second.

Maximize your Aspire R Series' entertainment capabilities with **HDMI®**, letting you output your favorite HD content and high-quality audio to an external monitor or big screen HDTV, all via the elegance of a single cable.

The **10-point multi-touch** display makes your digital life more intuitive, more electric, more fun! Experience efficiency hands-on as you open programs and complete tasks, browse online, and breeze through photo albums—using nothing but your fingers. Simply use scroll, flick, pinch and rotate motions to accomplish your tasks quickly.

Windows 8 has been re-imagined to be all about you. Put what matters most right on your Start screen, an

Your Closest Touch

Positioning Statement

The Aspire R Series Notebook boasts a convertible design that immerses you in content like never before. This slim, high-performance PC features the patented Ezel™ hinge, bringing your touchscreen within easy reach whichever way you use it. Work with the Aspire R at your desk as a notebook or an easel, flick it into display mode for sharing, or use it as a tablet for drawing. The Aspire R not only brings touch closer to you, it makes interaction natural.
